ANALYSIS OF STATEMENT OF FINANCIAL POSITION AND CONSOLIDATED INCOME STATEMENT

Statement of Financial Position Indicators

Total assets	<p>As of 30 June 2011, total assets of BIGBANK AS Group totalled 210.2 million euros. Increasing by 0.3 million euros during the quarter.</p> <p>As of 30 June 2011, receivables from customers accounted for 73.2 % of total assets, liquid assets (monetary funds and held-to-maturity financial assets) accounted for 20.9%</p>
Liquid assets	<p>As of the end of the 2nd quarter, monetary funds totalled to 43.9 million euros, decreasing by 9.2 million euros during the quarter.</p>
Held-to-maturity financial assets	<p>Liquid financial assets have partially been placed into short-term bonds with fixed payments and redemption deadlines, which the company intends to and is capable of maintaining until the redemption deadline. As of 30 June 2011, the volume of financial investments reached 6.9 million euros.</p>
Receivables from customers	<p>By the end of the 2nd quarter, the Group had 118 thousand loan contracts in total; including 37 thousand contracts in Estonia, 55 thousand contracts in Latvia, 16 thousand contracts in Lithuania and 9 thousand contracts in Finland and 1 thousand contracts in Spain.</p> <p>Geographically receivables from customers were distributed as follows:</p> <ul style="list-style-type: none">- 40.6% Estonia,- 33.0% Latvia,- 11.8% Lithuania,- 13.7% Finland,- 0.9% Spain. <p>As of 30 June 2011, receivables from customers reached 153.8 million euros, of which:</p> <ul style="list-style-type: none">- the volume of loan portfolio was 167.1 million euros. Loans to private persons accounted for 95.9% of the total loan portfolio,- interest receivables from loan customers totalled 22.1 million euros,- impairment reserve of loan receivables from customers amounted to 35.4 million euros (including impairment allowance for loan receivables in the amount of 29.1 million euros, impairment allowance for interest receivables in the amount of 5.4 million euros and additional impairment of 0.9 million euros).
Overdue loans	<p>BIGBANK AS is currently the only bank in the region that focuses on granting consumer loans. In line with the corporate strategy, as of 30 June 2011 loans against income accounted for 76.9% of the loan portfolio, loans against suretyship 11.3%, loans against real estate accounted for 9.2% and loans with insurance coverage 2.6%.</p> <p>In comparison to 1st quarter, there were no significant changes in the customer's payment behaviour in the 2nd quarter. The number of customers making regular payments or the rate of receipts on the default loan portfolio has stabilised. The volume of the non-performing loan portfolio of the Group has changed in similar proportion as the growth of the loan portfolio.</p>

In the case of overdue receivables an important fact needs to be noted, that in case of consumer loans the process of recovering non-performing receivables differs considerably from the process of recovering loans, which are secured with physical collateral (e.g. mortgage on property). Owing to the nature of the loans (as a rule, consumer loans are secured with the customer's regular income), amounts due under terminated loans are satisfied over an extended period in smaller instalments, not in a lump sum raised by the realisation of collateral.

Overdue receivables comprise of unpaid scheduled loan repayments and the principal amount of the loan that has become collectable. According to the terms of the loan contracts concluded with the customer, the Group may terminate the contract unilaterally when at least three consecutive loan payments are not met. Upon termination, the Group will demand repayment of the remaining loan principal, any interest payments that have fallen due and any associated claims arising from the payment delay.

The loans with payment delays over 90 days reflect the amount of the payments of overdue principal amounts, to which the entire credit amount will be added upon the termination of the contract.

Impairment allowance for receivables

To mitigate the risks arising from payment behaviour and cover potential credit losses, the Group has established corresponding reserves, which as of 30 June 2011 totalled 37.7 million euros. Reserve has been established on a conservative basis. The established reserve includes:

- impairment allowances for loan receivables in the amount of 29.1 million euros,
- impairment allowances for interest receivables in the amount of 5.4 million euros,
- additional impairment allowance in the amount of 0.9 million euros,
- impairment allowance for other customer receivables in the amount of 1.0 million euros,
- impairment allowance for other assets in the amount of 1.0 million euros.

Receivables, regarding which enforcement proceedings have not provided the expected results, have been written off the balance.

Liabilities

As of the end of the 2nd quarter of 2011, the liabilities of the Group amounted to 160.5 million euros. Term deposits formed the bulk of liabilities, i.e. 154.9 million euros (96.5%).

Subordinated liabilities totalled 3.7 million euros, forming 2.3% of liabilities.

Equity

In the 2nd quarter of 2011 the Group's equity grew by 1.5 million euros, amounting to 49.7 million euros. The share of equity in total assets amounts to 23.7%. As of the end of the 2nd quarter, the capital adequacy was 23.0% (Basel II) compared to 22.4% as of the end of 2010.

Consolidated Income Statement Indicators

Interest expenses	<p>In the 2nd quarter of 2011, interest expenses totalled 1.5 million euros, compared to the 2.1 million euros of the same period of the previous year. The loans granted by the Group have been nominated in the currency of the corresponding regions or in euro.

To mitigate the risk of losses arising from significant exchange rate fluctuations the agreements of loans denominated in the local currency of a region include a devaluation clause that ensures the proportions of contractual liabilities throughout the loan term.

Loan contracts that include terms of the contract, based on which in case of a devaluation of the national currency, the repayable amounts shall be adjusted within the extent of the devaluation of the currency.

Devaluation clause has been taken into account in the net currency positions.
